Family Returns to Historic Roots

On 18 February 1760, Phillip Wertdman was one of the congregational delegates who signed a document to buy land in Lynn Twp., Lehigh Co., PA, to build Ebenezer Union Church. (*Ebenezer Union Church 1740-1990, Stones of Help.*) On 26 July 1924, the Wertmans held a reunion at Victory Park in Slatington, PA. From 19-21 August 2011, the Wertman Family Association (WFA) returns to Ebenezer Church in New Tripoli and Victory Park in Slatington during our annual reunion. You can retrace the steps of our pioneer predecessors this summer and discover what we know or don't know about them as we share research, motivations, and possibilities. There have been some exciting discoveries this year.

You may register for reunion events and meals and pay the coming year's dues using the form on page 7 of this newsletter, or download the form from the WFA website at <www.wertman.info>. Please register by 23 July. We look forward to seeing you this year in Lehigh Co., PA, Friday-Sunday, 19-21 August.

Please join me in thanking Larry and Shirley Wertman and Minerva Arner for taking charge of this year's reunion arrangements.

Russell C. Dannecker, President, WFA,
6th G-Grandson of George Philip Wertman

Ohio Wertman-Reichelderfer Connection: Hattie Wertman of Ashland and Pickaway Counties

By Brenda Wertman Merz¹
(Kenneth G.², George M.³, John⁴, George⁵, Jacob Wertman⁶, d 1806, Northumberland Co., PA)

In 1997, I began the search for our family tree. My father owned part of the farm that had been in the family for nearly 100 years. Sometimes I went with him to check on the sheep, visit with my aunt and those managing the farm, and take care of other business as needed. Sometimes we even got out the rifle and practiced our shooting skills. One year, the wolves destroyed almost a third of Dad's sheep. I rarely saw him cry, but this time was an exception. As a result, Dad decided to stop raising sheep.

Look at the Neighbors

The Lynn Township PA map of land warrants shows familiar surnames such as Everet, Moser, Oswald, Sander, & Shock. Which others connect?

On one of these trips, I asked Dad what he knew about the family history. To my surprise, he knew very little. Beyond the immediate family, his closest first cousin that he knew about was 15 years older than he. Dad said there was a Hattie Wertman in the area, but had no dates or what part of the family she was from. I made a mental note of the information until I was able to research the family later in life.

Fast forward to 1996. My desire to trace the family tree became a reality. First, I checked Pickaway and Fairfield Co., OH, history books. I found my g-g grandfather, George Wertman, came to Ohio as a lad of about 10 years old with his stepfather Andrew Hines and his family in 1814. George married Susanna Leist, a daughter of David Leist, in 1827. He was the only Wertman mentioned in the history books.

We found our subject, Hattie Wertman, in the 1850 U. S. Census in the household of Jesse Wertman in Ashland Co., OH. Harrietta is seven years old. Her father, Jesse, was a son of John Jacob Wertman (1785-1863) who moved to Ashland Co. ca 1830. He was married to Maria Magdalena Reichelderfer in Pennsylvania before they moved to Ohio. The 1850 census for Jesse shows seven children: Hattie (a nickname for Harriett), plus Charles, William, Daniel, Jacob, Sarah and Maria Catherine.

By 1870, we find Hattie Wertman living with her sister, Maria Catherine, in Pickaway Co., OH, in the household of James Reichelderfer; the relationship between Hattie, Maria and James is not noted. Hattie Wertman was also listed in the household of Eli Lutz in the Pickaway Co. 1870 census. The Lutz family were cousins of the Pickaway Reichelderfers. Perhaps Hattie was residing with her sister's family, but "working out" at the Lutz household.

In the 1880 census for Pickaway Co., Hattie Wertman is living with James Reichelderfer and his wife (Maria) Catherine Wertman, where she identifies herself as the sister-in-law of James Reichelderfer. In one of the twists that is not uncommon in family history, James Reichelderfer and his wife Maria were cousins. Maria's grandfather, Jacob Wertman (1785-1863), was married to a Reichelderfer. The branches of the Reichelderfers go back to

Albany Twp. in Berks Co., PA, where they were members of the Rosenthal New Bethel Church along with Simon Wertman and family. John Jacob's brother Johannes married Anna Maria Reichelderfer. Maria Magdalena and Anna Maria were first cousins. Also, one of Martin Wertman's wives was Margaret Reichelderfer Stapleton/Stebbleton.

Hattie evidently maintained a relationship between the Ashland Co. and Pickaway Co. relatives. We found an 1889 notice from the Marion, OH, newspaper stating that Hattie Wertman of Circleville stopped in Marion to visit her sister and then went on to Ashland, Ohio, to visit other relatives. We presume Hattie shared news of the Pickaway Co. Wertmans, such as John and David Wertman, with their cousins in Ashland Co. Dad had heard of Hattie even though she had left Ohio before his birth.

Between 1880 and 1890, there were major changes in Hattie's life. Her sister, Maria Catherine, died in 1887 at the age of 46. Tragically, the couple had several children who all died before their mother. James Reichelderfer remarried a few years later. In 1889, Hattie married George Bossert. She was 45 years old and George was 59; apparently nei-

ther had been married before. George's family originated in Eastern Pennsylvania and had settled in the Pickaway Co. area. George's father moved to Fulton Co., IL, where George is found in the 1880 Census.

In the 1900 Census, we find George Bossert and Hattie in Fulton Co., IL, engaged in farming, with no other relatives in the household. By 1910 there is no mention of the couple in the census; we believe they both died between 1900 and 1910 in Illinois. The state's online death records are spotty before 1916, so we will need to communicate with the probate office in Fulton Co. for further information.

Other surnames familiar to the Wertman family were: Bousher, Delong, Hines, Hoffman, Shoemaker, Shoch, Spangler, Stapleton/Stebbleton, Stous, and Stump(f), who came to Pickaway Co. from Berks and Northampton counties, PA, before 1810. They played important roles in the settlement of the heart of America.

Another surprising twist to the story is that James Reichelderfer's grandson, also named James, married Doris Moffitt. Doris is the first cousin of Hal Merz's father, John Richard Merz. As you may know, Hal is my husband!

The David Wertman Family of Ashland, Ohio

David¹ (Solomon,² bro. of Daniel, pg. 3; David³; GP III⁴; Johan Michael⁵; and GP I⁶) b 1831 d 1903, m Rachel Garver, b 1832 d 1900. The family included Anice (1864-1954 m Stillwagon); Oscar (1861-1943); Agnes (1855-1937 m Vantilburg); Frank (1857-1932); George (1873-1953); Rachel; Jenny (1869-1949 m Brindle); Leah (1866-1957 m Kagey); Nora (b 1875 m Riley). Son John d, age 4.

The Wertman Gene Pool

by Tom Young

It has been a busy year for the WFA DNA Project. We have nine members in Phase 1, which attempts to reconstruct the probable haplotype (pattern) of George Philip Wertman (GPI) of Lynn Twp. by choosing the most common value for each of the 48 markers tested. All nine males have good paper trails to GPI with a maximum of two mismatches (genetic distance). Of seven total mismatches for all nine subjects, five are on what are considered fast-moving (more likely to mutate) markers. This indicates all nine are closely related.

There have been several interesting results since our last report. Jacob of Hemlock Twp. is thought to be the son of Jacob Sr. of Lynn Twp., but only circumstantial evidence has been found. Descendant WFA08 matches the presumed GPI haplotype 36/37, which indicates a very close relationship.

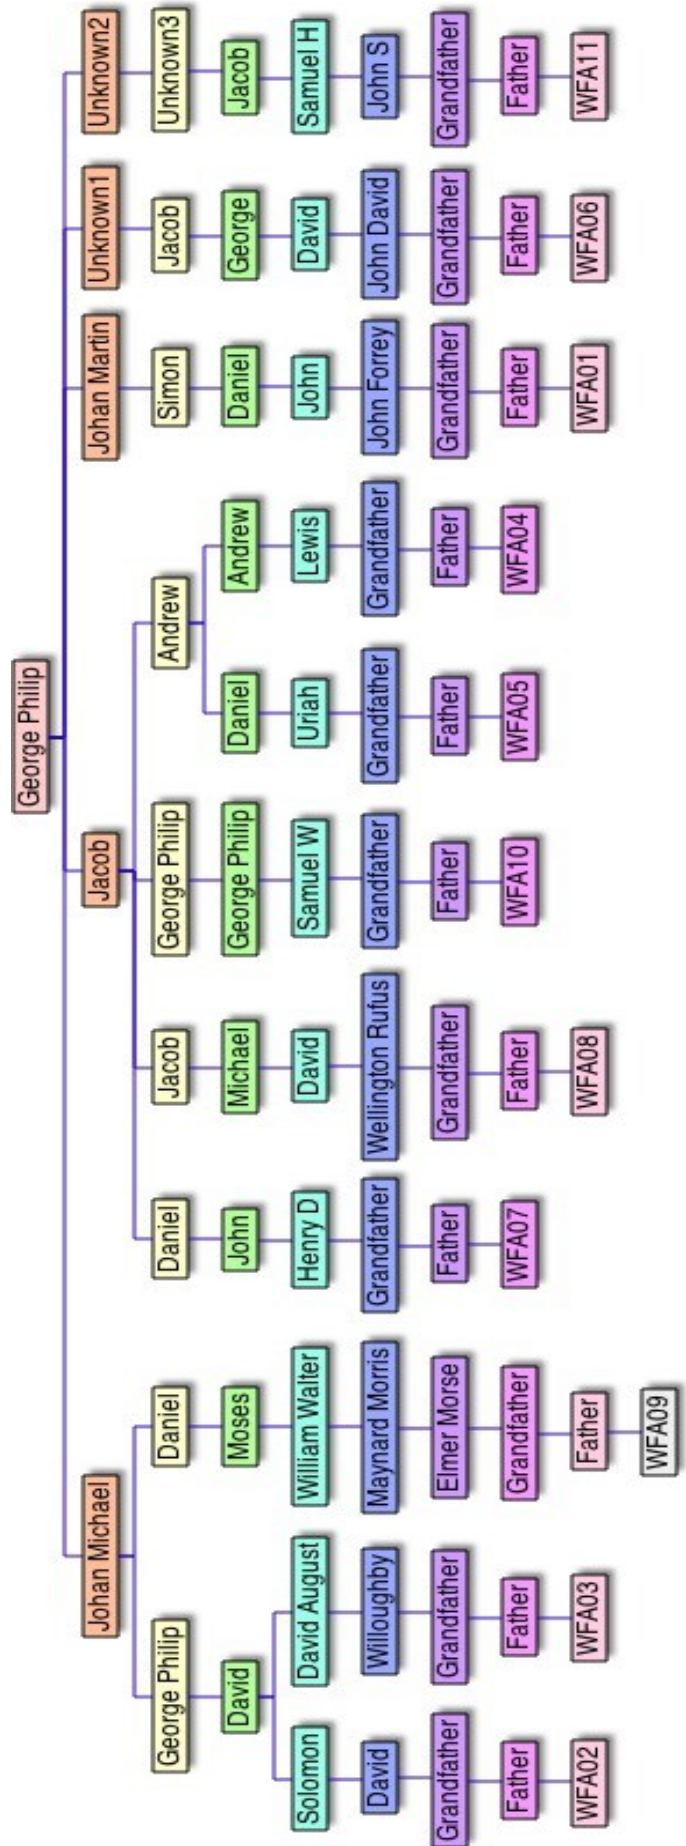

Phase 2, where we test those of unknown or uncertain ancestry for clues to a link, has been very exciting. Initial testing found two subjects, WFA06 descended from George of Pickaway Co. OH, and WFA11 descended from Jacob of Tuscarawas Co. OH, both to be very close matches with GPI.

WFA06 matched 42/43 with one null, a mismatch for which the lab was unable to determine a value. Testing at a different lab found the same null, so nothing further can be done with current technology. The second lab tested different markers, so five additional values were obtained, with one mismatch. WFA06 is 46/48, strengthening the idea that this line is closely related to GPI.

WFA11 matched 36/37 with the ancestral haplotype, a complete surprise to me. While WFA06 has some locales and neighbors in common with our clan, WFA11 does not! Further testing found him to match 47/48, indicating a relationship surely exists. Extensive research has failed to discover the connection between these two subjects and GPI.

Readers are invited to revisit what is known about their ancestry in the June 2009 and January 2010 issues of *Wertman Lines*. The results table can be found at <tinyurl.com/wfadna>

The chart implies that WFA06 and WFA11 are direct descendants of GPI. This is a limitation of the charting software; the relationship is unknown.

About The Wertman Family Association (WFA)

Since 2000, the rejuvenated Wertman Family Association has held annual reunions in Pennsylvania, Ohio, Indiana, New York, and Virginia. Those who attend learn more about relatives who lived before them, and form relationships with cousins from around the country. A unique feature of these events is a full-day session for researchers to share their discoveries. An earlier family association held reunion picnics in Pennsylvania and Michigan for a large group of relatives in the 1920s and 1930s.

Using the WFA website, <www.wertman.info>, strangers can discover long-lost family connections. The *Wertman Lines* newsletter and the WFA web pages disseminate accurate information about the family's heritage. In August 2007, the association dedicated a monument in the old graveyard at Ebenezer Union Church in New Tripoli, Lehigh County, PA. The black granite stone is in memory of the Wertman family that came to Lynn Township by 1749, including the "founding father," George Philip Wertman (a deacon at Ebenezer Church), and his five known sons, George Philip, Jacob, Johan Martin, Johan Michael, and Simon.
