

Primary Source Documents Related to the WERTMAN Family

The following table identifies copies of primary source documents related to the descendants of George Philip Wertman of Lehigh Co., PA. (known in the Wertman Family Association as GPI).

Types of Materials Included: This table includes only primary source materials. Primary sources are records that were created at the time of an event while secondary sources were created a significant amount of time after the event or by a person who was not present at the event. For example, a birth certificate is primary for the date of birth. A death certificate can be both a primary and a secondary document: primary for death information but secondary for the date of birth.

Owner of document: This is the individual who provided the document (or copy thereof) for this primary source project. This individual is willing to share this document with others for a SASE plus any copying charges if requested by the individual. If WFAA is noted as the owner, this document is held by the Genealogy/Historical Secretary of the Wertman Family Association in the family archives and is also available to others (request by WFA number) for an SASE plus any copying charges.

Dates: Dates are taken from the document. In cases where several documents are included in a file (e.g., estate papers), only a general date is given. The year is listed first so that the document list can be arranged chronologically.

Original Location: This is the location of the original document. Information is listed as State, County, Specific location (when listed on the original). This arrangement provides for sorting the list by state or state/county.

Main Person: This is the principal person to whom the document relates. For example, an inventory by Simon Wertman of the estate of Martin Wertman will show Wertman, Martin as the main person and Wertman, Simon as Person(s) mentioned. Again, the listing by inverted name (Surname, Given name) allows for sorting.

Other Significant Person(s) Mentioned: These are other important (for Wertman family research) individuals mentioned in the document. Clerks, judges, etc. are not listed. When mention is made of a Wertman by her married name (the will of a Wertman male who mentions his daughter by her married name such as Samuel Wertman's mention of "my daughter Sarah wife of George Kaufman"), the notation is made as follows: Kaufman, Sarah (nee Wertman).
