

Wertman Family Association Archives

The following table identifies the information contained in the files of the Genealogy/Historical secretary of the Wertman Family Association (WFA).

Each item is described as included in the archives using accepted archival standards. For example, a Civil War Pension file is described as a single item even though it may contain copies of a variety of primary source documents such as a marriage certificate, etc. To aid researchers, any primary source documents contained in the files of the WFA Archives will also be listed individually in the Wertman Family Association Primary Source Project.

Creator /Contributor of file: Identifies the individual who created the file or contributed it to the WFA Archives.

Date: The date shown is when the file was created, NOT the original date of the material(s) in it. For example, a file of genealogy materials created by Mildred Hershey in 2010 will show a 2010 date even though individual items in the file may be copies of much older materials.

Each file receives a WFA number which can be used to access it. An L following the number indicates that it is printed on 8.5 by 14 paper rather than 8.5 by 11.

For questions about the archives or to request a copy of any document, please contact the genealogy/historical secretary of the WFA at wfaarchives@hotmail.com. You will be sent an estimate of the cost for the document (copying plus postage).
